water solubility lace

ХИМИЧЕСКИ ПОЛОТНО

Chemical laces or trimmings, also known as water-solubility laces, are the accessory of choice for decoration as underwear lining and bras (lingerie). They are also widely used as fashion decoration on garments, bridal wear outfits as well as expensive alterations upon curtains, table cloth and rugs.

cotton trimmings / crochet lace

Хлопок

Cotton trimmings, also known as Crochet Lace, T/C, chiffon or georgette are used for a large array of applications. Due to the softness of the 100% cotton material, it is very commonly used to make sleep wear, children's garments, bed covers, mattresses and many similar kinds of products.
